Choice Payroll meets SAS70 challenge*Rigorous Certification by Leading Auditing Firm Reaffirms Choice Payroll's High Quality Operational Standards and Controls*

April 11, 2008 - Atlanta, GA – Choice Payroll announced today that it has successfully completed the certification process for SAS 70 Type 1 compliance, in conformity with the controls and objectives of leading independent auditor, Houdyshell & Associates.

SAS 70 is the authoritative guidance that allows service organizations to disclose their control activities and processes to their customers and their customers' auditors in a uniform reporting format.

Established by the American Institute of Certified Public Accountants (AICPA), SAS 70 is a component of the Sarbanes-Oxley Act of 2002 that was introduced in the US to increase transparency of internal controls for processes and procedures for service organizations.

“We are proud of this accomplishment because it reinforces our commitment to assuring our clients that our operational processes and controls meet the highest standards in the payroll industry,” said Lori Winters, president, Choice Payroll. “Achieving SAS 70 compliance is a lengthy process and requires a strong financial and operational commitment from our staff. As our clients continue to grow, our customers need the assurance of compliance levels that only SAS 70 can provide. We are pleased to have our experience and capabilities validated by an independent source,” Lori added.

About Choice Payroll:

Choice Payroll is based out of Atlanta, Georgia and specializes in tailored Payroll and Human Resource solutions to meet the individual needs of small and medium size businesses. The Company's humble beginnings started in 2001 as they grew out of an accounting firm that was tired of the mediocre service within the industry and wanted to make a difference. Today, thanks to its loyal customers, strategic partners and award winning dedicated payroll support, Choice Payroll is one of the fastest growing payroll companies in Atlanta.
